

The timber treatment operations of

Woodsafe Timber Protection AB

Fågelbacken Tillbergaleden, SE-72595 Västerås, Sweden

have been assessed and certified as meeting the requirements of the Wood Protection Association

Benchmark Quality Approval Scheme

for the fire retardant treatment of the components listed below in accordance with the standards and practices defined in the WPA Flame Retardant Specification Manual.

Approved FR Treater

Solid wood panelling and cladding treated with Woodsafe PRO fire retardant.

Solid wood panelling and cladding treated with Woodsafe Exterior WFX.

Detailed clarification of the scope of this certificate and the applicability of the Benchmark quality scheme is available from the Wood Protection Association.

The scheme does not confirm compliance of the flame retardant used with British or European Standards or other specifications - that is the responsibility of the flame retardant manufacturer.

This certificate of conformity is valid until the date indicated and remains valid subject to satisfactory audits by the WPA.
